HER LAST CRUISE. The remains of the historic old Granite State, fighting frigate of the Civil War, which served for years as a training ship for the New York Naval Militia, under tow to the dry-docks, to be broken up. The famous eighty-four-gun ship, built in 1814, was so badly wrecked by fire last May as to be useless, and a week ago yesterday saw her bravely plowing through the ice-filled Hudson to her grave on the Jersey shore.
